Use evidence-based practice decision-making

Name	Date	
------	------	--

Instructions

Use the framework below to come to an evidence-based practice decision about which partnership-oriented practices China and Aaron should use. Summarize sources of evidence, consider that evidence in light of different perspectives and contexts, and make a recommendation for the answerable question you posed in Step 2.

Evidence Research Policies Evidence-based knowledge Unique Perspectives & Contexts Program context Family perspective Your perspective

- 1. Summarize Step 3: Evidence
 - a. List the major points from Handout 4.4: Research Summary on Family-Centered Helpgiving Practices related to the best available research on partnership-oriented practices:
 b. List the major points from <u>C: Policies</u> reflecting the field's policy and guidelines related to family-professional partnerships.

Page 1

	c. List the major points from the professionals and family members on family-professional partnerships in D: Experience-Based Knowledge.	
2.	Consider the context	
	Summarize your answers from <u>Activity 4.11a: Consider the unique contexts</u> .	
3.	3. Examine the three phases of building a trusting partnership in which partnership-oriented practices may be used: (a) developing an initial friendly relationship, (b) making shared decisions, and (c) addressing challenging issues. Decide which phase best characterizes the current relationship between China and Aaron.	

Page 2 CONNECT – 2010

4.	Integrate the evidence and context to make a decision
	Recall the answerable question: In working with families of young children in early care and education programs (P), are partnership-oriented practices (I), effective in promoting trusting family-professional partnerships (O)?
	Weigh the evidence in light of the context to come to a decision about which practices should be used, and how they should be used, given the current phase of China and Aaron's relationship. What are your recommendations? Be prepared to discuss.
