## CONNECT Modules: Foundations of Inclusion Video

**The first CONNECT Module video celebrates it's 1-year anniversary.**

Chih-Ing Lim, CONNECT Project Coordinator

The Foundations of Inclusion Birth to Five video was released a year ago in conjunction with the DEC / NAEYC Joint Position Statement on Inclusion. Since then, it has been viewed over 8,000 times and has been well-received by faculty, PD providers and other stakeholders. The video has now taken on a new role.

In the first of a series of free online CONNECT Modules, the video helps to set the stage for Module 1, focused on the practice of embedded interventions. The 11-minute video, focuses on the big ideas related to early childhood inclusion (i.e., the research, federal policies, and an introduction to the DEC/NAEYC Joint Position Statement on Inclusion that provides a definition).

Check out the video and the rest of CONNECT Module resources on the CONNECT Modules website.
