### **EEX 3450**

I am embedding this module into EEX 3450, Young Children with Special Needs, which is a course in our Early Childhood Education program. My section is completely online so I am interested in how others will be using it online.

### **EEX 3450**

Junie,

We'll be interested to see how faculty use the module as part of an online course as well. We hope that this faculty lounge will serve as a place for you to share and exchange ideas about teaching and learning using the module.

### **EEC 2271**

Hello, I will be using the module in a 'blended' course, Intro to Working with Young Children with Special Needs. It is one of the required courses in our A.S. program in ECE. The course is offered either blended or online in alternating semesters. The course will be offered in a 12-week, Express session, so I will have some planning time (start date 2/8) I'll be using the materials as online assignments but will be able to get some 'real-time' feedback from students since they will be in class one night per week also.

## EEC 2271

Anne, Having feedback on how a hybrid (online and face to face) course works with the moodle materials will add to our knowledge. Thank you.

## Info and question

I am incorporating the pilot into ECE 220 Inclusion in Early Childhood Programs. It is an hybrid course and the student's will be using the material online. I could not get into the Learner View...should I be able to? I wanted to try to figure out how to incorporate the materials. Bonnie

## Info and question

Hi Bonnie,

Yes, you should be able to get to the Learner View. Please try again and if it doesn't work, do let us know.

Thanks,

## Word Documents Needed

I am using the module in a self-paced learning format in a hybrid/blended course. I have had to convert all the PDF files into Word documents to ease students' access and use of the activity files. I would like to provide the students with just the Assessment Rubrics for Activities 1.8a and 1.14 which are part of a PDF file in the Instructor's Dashboard and I cannot get it as a separate document, can you help?

Reply

## Word Documents Needed

Hi Jamie,

We will send you an email with Word versions of Activities 1.8a and 1.14 (page 2, rubrics only). Interesting you are sharing these out to students. :) Keep us posted.

By the way, there are Word versions of all the student activities on the "Instructor" Dashboard. The PDF versions offered to students in the Learner Modules area function like forms...students fill in the blanks, then save or print. Nice hearing your students have access to MS Word.

Here are links to the instructor dashboard and pdf info.

## **Word Documents Needed**

Thank you, I found the Word documents after I had converted all of the activities in January when I posted them on my on-line class.

I give out rubrics for all the assignments I grade so that students can see what is expected.
