NAEYC Professional Preparation Standards

2010 NAEYC Standards

for Initial and Advanced

Early Childhood Professional Preparation Programs

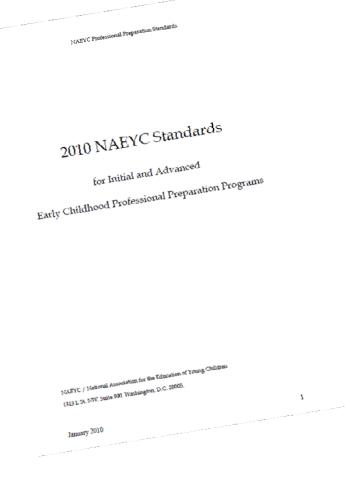

New 2010 standards include increased emphasis on diversity and inclusion in each standard

NAEYC / National Association for the Education of Young Children 1313 L St. NW, Suite 500, Washington, D.C. 20005.

January 2010

The NAEYC Professional Preparation Standards

What should early childhood teachers know and be able to do?

- 1 Promote child development and learning
- 2 Build family and community relationships
- 3 Observe, document, and assess to support young children and their families
- 4 Use developmentally effective approaches
- 5 Use content knowledge to build meaningful curriculum
- 6 Become a professional

How do we really know what our students know and can do?

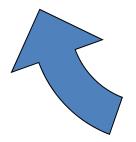

As early childhood teacher educators, can standards provide a frame for our own playful, reflective, responsive teaching?

Using standards as a frame for reflective, responsive teaching and learning

Analyze and use student performance data to improve teaching and learning

Design
learning opportunities
and key assessments
aligned with
NAEYC Standards

Collect data on student performance

Overview of FREE CONNECT Modules

http://community.fpg.unc.edu

Context: Increased Attention to PD Quality & Impact

Effective professional development

Increase in teachers' knowledge and use of evidence-based practice

Improved child and family outcomes

Context: Practitioners are Expected to Use Evidence-Based Practice

Context: Faculty & PD Providers are Expected to Incorporate EBP into PD

Evidence-Based Practice is.....

identifying decisionmaking process specific research-bthat integrates the best available research practices devidence with family & been validated thre professional wisdom & rigorous eview provalues

Buysse & Wesley, 2006; Buysse, Wesley, Snyder, & Winton, 2006, Thompson, & Harris, 2005

Two Components of Evidence-Based Professional Development

The PD content focuses on specific research-based teaching and intervening practices

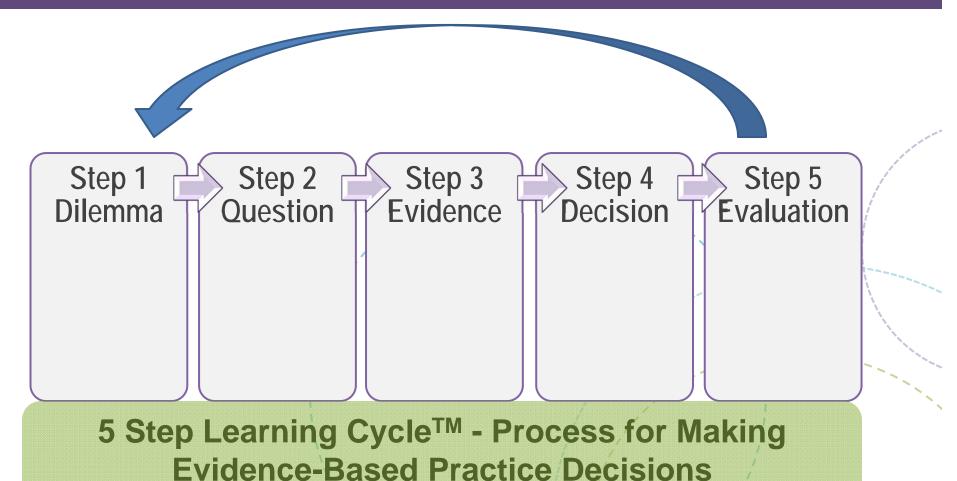

The PD delivery focuses on evidence-based methods for building practitioners' knowledge and evidence-based decision-making

CONNECT Modules: Practice-focused approach

Innovation: An Approach for Incorporating EBP into PD

Our Target Audience

- 2-year and 4-year early childhood college faculty
- Other professional development providers

What Faculty and PD Providers Want

- Short video clips that illustrate practice
- Activities
- 24/7 availability
- Flexibility & ease of use

Module 6: Dialogic Reading

Step 1: Dilemma

Step 2: Question

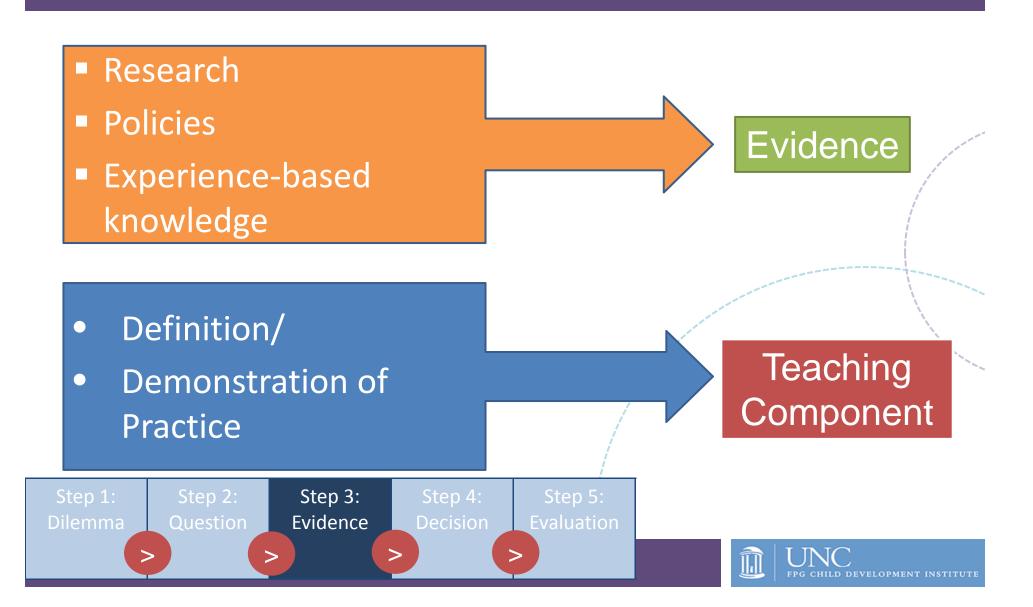

When reading to young children in early care and education settings, is the use of dialogic reading effective in developing early language and literacy skills?

Step 1: > Step 2: > Step 3: > Step 4: > Step 5: Dilemma Question Evidence Decision Evaluation

Step 3: Evidence

WWC Intervention Report

U.S. DEPARTMENT OF EDUCATION

What Works Clearinghouse

Revised February 8, 2007

Early Childhood Education

Practice description Dialogic Reading is an interactive shared picture book reading practice designed to enhance young children's language and literacy skills. During the shared reading practice, the adult and the child switch roles so that the child learns to become

the storyteller with the assistance of the adult who functions as an active listener and questioner. Two related practices are reviewed in the WWC intervention reports on Interactive Shared Book Reading and Shared Book Reading.

Research Four studies of Dialogic Reading met the What Works Clearinghouse (WWC) evidence standards and one study met the WWC evidence standards with reservations. Together these five studies included over 300 preschool children and examined intervention effects on children's oral language and phonological

processing. The majority of the children studied were from economically disadvantaged families. This report focuses on immediate posttest findings to determine the effectiveness of the intervention; however, follow-up findings provided by the study authors are included in the technical appendices.2

Effectiveness Dialogic Reading was found to have positive effects on oral language and no discernible effects on phonological processing.

	Oral language	knowledge	Phonological processing No discernible effects	Early reading/writing N/A	Cognition N/A	Math N/A
Rating of effectiveness Improvement index ³	Positive effects Average: +19 percentile points Range: -6 to +48 percentile points	N/A	Average: +9 percentile points Range: -7 to +40 percentile points	N/A	N/A	N/A

- 1. To be eligible for the WWC's review, the Early Childhood Education (ECE) interventions had to be implemented in English in center-based settings with children ages 3 to 5 or in preschool. One additional study is not included in the overall effectiveness ratings because the intervention included a combination of Dialogic Reading and Sound Foundations, which does not allow the effects of Dialogic Reading alone to be determined. See the section titled "Findings for Dialogic Reading plus Sound Foundations" and Appendix A4 for findings from this and a related document.
- 2. The evidence presented in this report is based on available research. Findings and conclusions may change as new research becomes available.
- 3. These numbers show the average and the range of improvement indices for all findings across the studies.

Dilemma Question

Step 3: Evidence

Decision

Defining the Practice

Step 1: Step 2: Step 3: Step 4: Step 5: Dilemma Question Evidence Decision Evaluation

Definition of the Practice

Dialogic reading is a specific type of interactive reading that relies on a set of strategies called PEER (Prompt-Evaluate-Expand-Repeat) designed to create a conversation with children and help them take an active role in storytelling.

Dialogic Reading Strategies

- O Before reading ...introduce the title/author, ask a question to create interest in the book
- O During reading ...use CROWD prompts & PEER sequence
- After reading ...ask questions to help children recall the story & make connections to their lives

Video Demonstrations of the Practice

Example of how Module 6 has been used

Collaboration between Mollie Lloyd, Asst Professor, UNC-CH & Sharon Palsha, Clinical Assistant Professor, UNC-CH

Mollie taught the module content according to the 5-Step Learning Cycle in her Early Literacy Course (Undergraduate Seniors)

Students implemented the practice in their practica settings as part of Sharon's practica seminar

Student Teacher's Journal Entry

"The children were so better engaged today because my reading was so much more intentional. I wasn't afraid to let them talk. In fact, it was exciting to hear their connections to the story."

Student Teacher Shares her Experience

Available Modules

Module 1: Embedded Interventions

Module 2: Transition

Module 3: Communication for Collaboration

Module 4: Family-Professional Partnerships

Module 5: Assistive Technology Interventions

Module 6: Dialogic Reading

Module 7: Tiered Instruction (Social emotional development & Academic learning)

Experience-Based Knowledge: Voices from the Field (In-service)

"I'd like to mention that the CONNECT resources and modules are incredibly valuable for those of us who provide statewide in-service training and technical assistance to practicing EI professionals. The 5-Step Learning Cycle/problem solving framework supports group application of content. We plan to use this same framework in our Children with Complex Needs Initiative trainings and online coursework in 2012-13."

- Heidi Wettlaufer (Pennsylvania Technical Assistance Network)

Experience-Based Knowledge: Voices from the Field (In-service)

"We have been discussing the possibility of standardizing the training around inclusion and serving children with special needs that is delivered through the CCR&R system, and we think the Connect modules that FPG has developed might be a good fit" – Jani Kozlowski (North Carolina Department of Health and Human Services)

Pair-Share

- How do you envision using CONNECT modules in your upcoming PD opportunities?
- Who might you share CONNECT modules with?

Starting Small: How the Modules were Used

Lisa Stein
Atlantic Cape Community
College

- Has used resources from Modules 1-6
- Used modules in a variety of courses
- Used modules in classes with different formats (e.g., face-to-face, hybrid, online)
- Picked and chose parts of the modules to use

Benefits of CONNECT modules

Practice focused

 Real life dilemma – especially important for students to hear the parent's side of a dilemma

5-Step Learning Cycle™

Each CONNECT Module focuses on a discrete practice in a key content area (e.g., inclusion, family-professional partnerships, transition) and is organized around the 5-Step Learning Cycle™. The 5-Step Learning Cycle™ is an innovative approach for making evidence-based practice decisions. It is based on realistic problems to solve and the importance of integrating multiple perspectives and sources of evidence.

To learn more about the cycle, click on the step to read the descriptions below or watch the video clip: CONNECT Modules: 5-Step Learning Cycle™.

Step 1. Dilemma

In **Step 1**, the learner considers a realistic dilemma to be solved. The dilemma is presented from the perspectives of family members and / or the practitioners.
