

OSEP Indicators and Outcomes

The state administrators in charge of early intervention services (Part C of IDEA) and preschool disabilities services (Part B Section 619 of IDEA) have certain reporting requirements to the US Department of Education – Office of Special Education Programs (OSEP).

Part C Early Intervention and Part B-Section 619 coordinators must demonstrate yearly progress in Annual Performance Reviews (APR) of their State Performance Plans (SPP) towards performance indicators in nine areas related to early childhood outcomes. Part C has 14 indicators and Part B has 20 indicators on the SPP/APR. All states must have an improvement plan which typically includes professional development activities.

The content, activities and resources of **Module 7: Tiered Instruction** can be used by professional development providers to help states make progress towards the following **OSEP Indicators**:

Part B – Indicator 6: Preschool Children in General Education Settings (Preschool Least Restrictive Environment (LRE))

Percent of preschool children with IEPs who received special education and related services in settings with typically developing peers (e.g., early childhood settings, home, and part-time early childhood/part-time early childhood special education settings).

Part B – Indicator 7: Preschool Outcomes

Percent of preschool children with IEPs who demonstrate improved:

- A. Positive social-emotional skills (including social relationships);
- B. Acquisition and use of knowledge and skills (including early language/communication and early literacy); and
- C. Use of appropriate behaviors to meet their needs.
